Despite having played with clay for mold making unsuccessfully years ago, I was confident that my learned knowledge since then would make it much easier now, as I didn't plan to use clay at all. This post contains affiliate links, meaning, I recommend products and services I've used or know well and may receive a commission if you purchase them using my link (at no additional cost to you.)

How I Made My Own Slump Molds - Living Sun Glass

Suzan: Also, I've read in two glass fusing books that clay molds for glass slumping should be fired two cones lower than what the clay manufacturer suggests. This makes the mold slightly less rigid and better able to handle the stresses of glass movement in repeated firings. I fire my clay molds at Cone 06, roughly 1800F.
