Thank you for choosing a Magnum XLS series aircraft engine. The XLS .40 & .46 are single cylinder, two-cycle engines incorporating ABC (Aluminum piston, Chrome-plated Brass sleeve) technology for long life, high power output and easy break-in. Both engines feature dual needle valve carburetors for precise fuel/airflow metering, cast alumi-

Also got a Mk1 ASP 46 aero engine, the original early 90's version and can't fault it, having power, reliable idle and instant transition - even better than some OS's. Also seen a old ASP 32 blue head that was atrocious, never gave a reliable flight, but today's ASP/SC/Magnum are just as good as OS/Irvine, cheaper and parts are cheaper.

### **Misc. SIG Items - SIG's Model Aircraft Kit and ARF History**

Just like full size Internal Combustion (IC) engines there are 2-stroke and 4-stroke model airplane engines, also sometimes referred to as 2-cycle and 4-cycle. The primary difference between the two types is that a 2-stroke engine fires per single complete revolution whereas a 4-stroke engine fires once per two revolutions.
