E-TECH ENGINE

The Mack e7 engine's optimal running rate is at 1400-1800 rpms but isn't designed for high running rates. It is not unlikely to have a Mack Engine put 1,500,000 miles hauling full loads and not need a major overhaul. Mack E7 engines are found in mining, oil and gas,

I am interested in information on the 2004 Aset engine. My friend is looking at a 2004 Mack with 204,000 miles on it and it looks to be very clean. We have heard that the the engine has not had a good reputation for reliability. My friend is an independent operator so a bad truck could really hurt.
