emerged around the USSR and the United States.

Towards a bipolar world (1945-1953) - The Cold War (1945 ...

Bipolarity supposedly has offered the world a certain amount of stability during the period of the Cold War. The nuclear threat meant that the war was never allowed to get 'warm' as the whole world population could be erased, this was an accepted, although tense, term, bound to the interdependence concept.

Cold War Bipolarity - UKessays.com

For the rest during the Cold War, international politics lived not in a state of bipolarity, but amid conditions of confrontation between two unipolar and relatively independent worlds. The US and the Soviet Union did not act as competitors in global markets.

The world turns bipolar | New Europe

We describe the reality of the bipolar Cold War and how it is only partly reflected in polarity theory and neorealism. The period was marked by the combination of power bipolarity (two superpowers), cluster bipolarity (bipolarization), and a military and ideological confrontation between two blocs with different economic and political regimes.

The Bipolar Cold War and Polarity Theory | SpringerLink

The bipolarity of the Cold War was changed into multipolarity due to the lack of political will of the United States to act on the unipolar moment. In 2001, and with a new president in office, the structure changed again. This time the G.W. Bush administration was keen to play the role of a global governor.
